An Editor of a 'Kaczynskist' Journal Had His House Raided & Phone Seized

15 August 2022

A go fund me created by the person who's house was raided reads as follows:

> **Help me with a deposit for my legal team.**
>
> $960 USD raised
>
> This fundraiser is no longer accepting donations. If you are the organiser, beneficiary, a team member or donor, sign in for further details.
>
> Pierce Skinner is organising this fundraising appeal on behalf of Gabriella Aguilar.
>
> Hello. My name is Pierce Skinner. I publish a bi-monthly magazine dedicated to individual liberty and opposition to tyranny and unwarranted government surveillance. This magazine is called **GARDEN.**
>
> On July 4th, I and others who will remain anonymous collaborated to publish legal–albeit sensitive–information in Issue 3 of our magazine. We have remained within the boundaries of the First Amendment in every possible way, and violated no laws in our publication.
>
> ***However, on August 10th, the Department of Homeland Security raided my home and seized my phone without a warrant.*** Since then, my Instagram and Discord have been deleted.
>
> Beyond this, I am unable to go into detail, as this is an active investigation.
>
> I have hired two high-powered attorneys to aid in my defense and help me combat this egregious violation of my rights.
>
> I am able to enter into a payment plan with my attorneys. However, I need a little help with the deposit.
>
> If you have followed GARDEN on this journey, or if you value free speech, please donate to help me. I am in the claws of a terrible machine.
