

**Incels: Force “beta cucks” to
become women so we can have sex
with them**

Incels wish they had FaceApp ray guns they could use on unsuspecting men

Yesterday, one of the regulars on the horrific cesspool of inhumanity known as Incels.me posed a question to his fellow “involuntary” celibates: “Should beta cucks be turned into women?”

Not only did most of his colleagues agree, they thought it should be mandatory.

CroMagnonBoy, the lovely fellow who posted the poll, explained why he thought his out-of-the box proposal could solve pretty much every problem incels face.

“In this hypothetical situation,” he wrote,

the technology for turning men into full biological women exists. The vagina and ovaries can be grown using your own DNA, and feminizing effects take place within a month at the most.

Clearly Mr. CroMagnonBoy isn’t burdened by any actual knowledge about, or understanding of, contemporary medicine or, really, how any of this actually works.

We all know that these spineless, ball-less losers are beyond saving. These same losers advocate for women to have total and full dominion over men. Although they are for the most part small, pathetic, and harmless, they are a step above women due to the small presence of testosterone in their blood.

Er, actually *everyone* has some testosterone in their blood, but never mind, as this inaccuracy is possibly the least egregious thing about CroMag’s proposal.

[Experiment] Should beta cucks be turned into women?

Should beta cucks be turned into women?

Allow them to have the option to

Votes: 6 18.8%

Force them to turn into women or face death row

Votes: 20 62.5%

No

Votes: 6 18.8%

Total voters: 32

And what makes this slightly more concerning is that they make up a majority of men, and hold positions of power. They are responsible for everything to do with feminism and female empowerment. In other words, they are our worst enemy. They caused our incelism with hypergamy and dysgenics.

We “cucks” are responsible for *what* now?

Since we as incels crave females, and there are plenty of failed “men” , how would you feel about turning these low t losers into cum-sluts on a mass scale?

Somehow I suspect this dude reads a lot of Hentai.

If you think about it, these cucks would love being a woman. They love being submissive [weird sex crap deleted] Wouldn't that be just perfect on a woman? A girl who wants to watch you [weird sex crap deleted].

I'll just summarize the censored material by saying that CroMag has some very specific plans for what to do if his plan ever comes to fruition.

It would also solve the gender ratio hugely. Since it would convert so many “men” into women, men would hardly ever have troubles getting a girlfriend.

Weird how these guys who hate women so much, who think they're lazy parasites, who are convinced that only men can STEM properly, or really think at all, would be so eager to have so many more women around. But hey, I guess they're into pretty much anything — even if it's a bizarre, hypothetical sci-fi scenario — that might make some women so desperate they'd actually agree to let one of these assholes touch them.

So what happens to any “beta cuck” who refuses to go along with this rather drastic plan? In the comments, CroMag suggested he would be happy for them to be transformed into, er, organic fertilizer instead.

Though an overwhelming majority of those who answered CroMag's poll thought his plan was a good one, there were some critics.

Some felt it didn't go far enough. “These new women would be even more wicked than normal women,” wrote forum regular Robo Sapien. “[E]xterminate them.”

“Put them into gas chambers instead,” agreed the aptly named Evildoer. “Cheaper and better.”

Others didn't like the idea of sex with someone who wasn't born a “real” female. As “fuck chad” saw it,

Even though they are completely women I still wouldnt want to fuck something that used to be a man. especially a man that was a complete beta cuck. it would be easier to just kill them all

LiterallyASoyBoy agreed, throwing a transphobic slur into the mix,

You can't change your physical body from male to female, tr***ys only LARP as women. So it's moot for now

The Great Cel had a simpler solution:

Turn beta cucks and male feminists into eunuch slaves

Profligate wondered if any medical procedures were even necessary:

Aren't they already? Some of these cucks are so low T that you can't even tell.

All of these different opinions, and all of them awful!

I wonder, again, if any of those who think we as a society need to do something to “redistribute sex” to these guys has ever actually looked at the sorts of things these guys talk about all day. These guys are too angry, too hateful, too dangerous for anyone to fuck. Hell, they're dangerous to simply *be around*, and not only to the women they want to have sex with, as this creepy little discussion reminds us yet again.

H/T — Thanks again to @Justincelthings, who highlighted this horrible thread on Twitter
