

Kaczynski documents prison life

Ted Kaczynski

Included in Kaczynski's personal papers is meticulous documentation of his life at ADX, including complaints about his toilet, bad food and officers shorting him on recreation time.

March 10, 1999

Cop-out to Mr. Irvin, Unit Manger
from Theodore John Kaczynski 04475-046

Some time ago I sent you a cop-out about the fact that the officers who sit outside my window to watch me often have their radios turned up loud at night. After that there was a great improvement. However, the problem has recently begun to come back. For example, on the night of March 8-9 the officer had his radio turned up loud.

Ramzi Yousef also has complained to me about being awakened at night by the officer's radio.
